Hello,

Last week we failed to convince the Judge that the 1000 gallons of water a day would not keep all the dust on site and there may not even be enough water underground down at 300 feet. It was unfortunate, but not entirely unexpected. This lawsuit is a CEQA case and CEQA cases for the most part just allow modifications to a project, but still allow the modified project eventually be built. But the final decision must be signed and has yet to become final. So how is it that NP has been constructing their site for weeks and at great expense without a permit? Where is the promised oversight?

<http://tinyurl.com/7x8q3t7>

The BLM easement has been applied for but is not done, yet NP has built miles of fencing on BLM land? BLM is now issuing a cease and desist order to NP. But BLM should also require NP remove the illegal poorly built fences. Please call BLM and request NP remove all work and place a large fine on them.

No EIR, no CUP, no BLM permit, yet they move forward. Where is the help from the County as promised? Maybe give the County a call and ask for them to stop the construction and also fine them. Show us the protections and oversight.

And if interested we are having a conference call with both Legal Teams at Bob Conaway's office at 1:30pm on Thursday.

Law Office of Robert D. Conaway

222 E. Main Street, Suite 212
Barstow, CA. 92311

See you there. Much to discuss. It is only over if we quit. It will only be built if we allow it. Everyone is busy. But NP will be working through the holidays as they are desperate to start the 100 trucks a day we should expect once they open their gates. Take 10 minutes and make a difference.

thank you

Norman
